	<b>Title</b>	<b>Abstract</b>
23	Method and apparatus for normalizing and converting structured content	
24	System, method, and computer program product for a network-based content exchange system	
25	Trusted infrastructure support system, methods and techniques for secure electronic commerce transaction and rights management	
26	Method and apparatus to search for information	
27	Query engine and method for querying data using metadata model	
28	Parser translator system and method	
29	System and method for implementing intelligent online community message board	
30	Workflow agent for a multimedia database system	
31	System, method and article of manufacture for making serendipity-weighted recommendations to a user

	<b>Title</b>	<b>Abstract</b>
32	System, method and article of manufacture for increasing the user value of recommendations	
33	Automatic statement completion	
34	System for transforming and exchanging data between distributed heterogeneous computer systems	
35	Techniques for defining using and manipulating rights management data structures	
36	Multidimensional domain modeling method and system	
37	Query language execution on heterogeneous database servers using a bind-file bridge between application and database languages
